

European Capital Markets Fact Sheet Q1 2019

FESE

Index

Overview

- ✦ **European capital markets had a weak first quarter in 2019. Major indices recovered from sharp declines in Q4 2018 but an uncertain economic outlook dominated the picture.**
- ✦ **The FESE Index increased both quarter on quarter (qoq) and year on year (yoy) and recovered its earlier path.**
- ✦ **It was a positive quarter for SME Markets listings and market capitalisation, a reversal was seen from the previous trajectory and an overall yoy increase was posted.**
- ✦ **New listings and investment flows experienced sharp declines owing to stagnation in the European IPO market.**
- ✦ **Q1 2019 was a stagnant quarter as regards to options and futures, stock/index options and futures suffered a stark qoq decline in notional turnover.**
- ✦ **Very good news for bonds: they increased in turnover both at the qoq and yoy levels.**
